

The FAA Safety Team presents:

Wow That Was Close!

Have you ever been involved in a close call? Collision avoidance, both in the air and on the ground, is one of the most basic responsibilities of a pilot flying in visual conditions. Mid Air Collision Avoidance (MACA) is an initiative involving the Department of Defense, the FAA and numerous civilian organizations (such as AOPA); focusing on an awareness of military operations in our region to avoid potential conflicts. We can all learn more about the environment we are operating in and maintain situational awareness. Don't miss this interactive discussion with Major Ryan Nugent, of the 143rd Airlift Wing, of the Rhode Island Air National Guard. Click on the link below to learn more and register TODAY!

Directions: From the North: Take Rt. 295 South to Exit 9A to Rt 146 South. Turn on Rt 116 South. Merge to W. Greenville Rd. Left on Albion Rd. From the South: Take Rt 295 North and follow directions from above. For easy free parking please use the old main terminal building lot.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
